YOUNG DEVELOPERS COUNCIL · PROJECT OVERVIEW

Arcadian Square

SWC of 48th Street & Indian School Road, Phoenix, Arizona

60	12.63	4.75	7.3x
LUXURY HOMES	GROSS ACRES	DU / ACRE	LESS TRAFFIC THAN CURRENT ZONING

THE REQUEST

Rezone the site from **C-1 Neighborhood Commercial** to **Planned Unit Development (PUD)**, together with a Minor General Plan Amendment changing the General Plan land use designation from Parks / Open Space to Residential 3.5–5 du/ac.

THE PROPOSAL

Arcadian Square is a 60-home luxury single-family community built by **Cullum Homes**, one of Arizona's premier custom homebuilders. Homes will run roughly 3,000–5,000 SF, each with an elevator and the option of a basement with its own car elevator; buyers may combine two lots for a larger home and property. Homes front common greenbelts and walking paths, with garages tucked to the rear and vehicular access from 48th Street — shifting an existing driveway about 150 feet south. Every home is fully custom: buyers choose from several exterior models to keep a consistent architectural theme, then work directly with Cullum's design team on the floor plan, materials, and fixtures.

IMPORTANT HIGHLIGHTS

The site is currently zoned C-1 with a stipulated site plan for a **132,000 SF mixed-use commercial center** — two driveways on 48th Street, two on Indian School. That approved commercial plan would generate roughly **7.3× more traffic** than Arcadian Square, or about 4,254 additional trips per day. Arcadian Square also adds meaningful pedestrian safety measures where its driveway meets the Crosscut Canal shared-use path — large site visibility triangles, gate-activated flashing signage, and a speed table — plus a dedicated 10–14 ft sidewalk easement along Indian School Road and a detached, landscaped shared-use path connecting to Arcadia High School, for a total cross-section of 18–22 ft from the project wall to back-of-curb.

THE TAKEAWAY

Arcadian Square is a dramatic reduction in intensity for this corner compared to the by-right 132,000 SF commercial plan — a residential density of just 4.75 du/ac, significantly less traffic, a safer pedestrian environment, and a high-quality community of 60 custom homes from one of Arizona's best luxury homebuilders.

HOW YOU CAN HELP

Letters of support currently outnumber opposition 3-to-1 — but the opposition is loud. We need engaged supporters to match that energy.

WRITE A LETTER

Email ben@wmbattorneys.com and Ben will work with you directly on a letter of support.

SPEAK AT THE HEARING

Live in Arcadia? Come speak in support at the Camelback East Village Planning Committee hearing.
